## PROJECTS

### Nest BE Application

[Medium Article](#)

Engineered a scalable Nest.js backend application with a complete REST API for comprehensive employee and user management, utilizing Prisma ORM for robust database operations and Neon DB.

### User Management Application

Full stack CRUD ( Create, Read, Update, Delete) using Spring boot and React Hooks using Functional Components. We will build Web Services (REST API) using Spring and MySQL on Backend and handle the same REST API on react in frontend using axios.

### PortFolio Application

[Host URL](#)

Designed and deployed a responsive personal portfolio website using React and Tailwind CSS, showcasing projects and skills, and hosted on Netlify for optimal performance.
